Shareholder II for Windows

Investment Monitoring System

Shareholder II for Windows is a powerful, easy-to-use investment accounting system that supports in-house monitoring and consolidation of investment activities and holdings. It was developed from Euraplan's existing Shareholder II DOS program in order to provide users with the added benefit of a windows front-end.

Shareholder offers independent verification of fund manager activity through using Exshare data feeds. Shareholder allows full cost, income and cash reconciliation.

'Shareholder II
for Windows
is a powerful,
easy-to-use
investment
accounting
system'
